

Enhanced EconoNigeria Prompt

ECONONIGERIA

PROJECT GOAL

Create an AI-powered economic intelligence platform providing insights into Nigeria's economy.

MISSION

Become the Bloomberg for Nigerian students, researchers and SMEs.

GITHUB REPOSITORY STRUCTURE

```
econonigeria/  
■■■ README.md  
■■■ frontend/  
■■■ backend/  
■■■ datasets/  
■■■ notebooks/  
■■■ reports/  
■■■ forecasting/  
■■■ screenshots/  
■■■ docs/  
■■■ deployment/
```

DATASETS

```
inflation.csv  
gdp.csv  
exchange_rates.csv

interest_rates.csv
```

README SECTIONS

```
Problem  
Why It Matters  
Solution  
Impact in Nigeria  
Technical Architecture  
Future Work
```

IMPACT SECTION

Provide accessible economic intelligence and forecasting tools for students, investors and policymakers in Nigeria.

TECH STACK

Next.js, TypeScript, Supabase, PostgreSQL, FastAPI,
Python microservices, OpenAI API and Recharts.

DELIVERABLES

Production-ready code, architecture diagrams, API documentation,
scheduled jobs, deployment instructions and research reports.
